The estimate of the number of jobs created/retained attempts to follow the federal requirements that will begin with the first quarterly federal report due on or before October 10, 2009. This estimate includes any new positions to support or carry out Recovery Act projects or activities managed directly by the recipient, and if known, by sub recipients. The number expressed as "full-time equivalent" (FTE), calculated cumulatively as all hours worked divided by the total number of hours in a full-time schedule, as defined by the recipient. Through July 31, 2009, the total number of hours for a traditional forty (40) hour workweek is 952.
